ASHISH KUMAR

Computer Science & Design | Machine Learning | Artificial Intelligence

Lucknow, Uttar Pradesh | +91 7830781799 | ashishyadav852897@gmail.com

GitHub: github.com/ashishcodes-hub | LinkedIn: linkedin.com/in/ashish-kumar-153106382

PROFESSIONAL SUMMARY

Computer Science & Design student with a strong interest in Machine Learning, Artificial Intelligence, and Data Science. Hands-on experience in Python, Java, SQL, supervised learning, classification, model evaluation, data preprocessing, feature engineering, and exploratory data analysis. Developed machine learning solutions using Scikit-learn and built an end-to-end AI computer vision application using OpenCV, Dlib, Streamlit, Supabase, and GitHub Seeking an AI/ML internship to contribute to machine learning workflows, model evaluation, data processing, and production-oriented AI applications.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Machine Learning: Machine Learning, Supervised Learning, Classification, Model Evaluation, Deep Learning
Data Science: Data Cleaning, Data Preprocessing, Feature Engineering, Exploratory Data Analysis
Libraries & Frameworks: Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit
Artificial Intelligence: Computer Vision, Face Recognition, OpenCV, Dlib
Database & Development: Supabase, Git, GitHub
Deployment: Streamlit Community Cloud, Cloud Deployment, End-to-End Application Deployment
Web Technologies: HTML, CSS

PROJECTS

AI Real-Time Gym Coach | Python, OpenCV, MediaPipe, Streamlit

- Developed a real-time AI fitness application using **Python, OpenCV, and MediaPipe** for human pose estimation and exercise tracking.
- Implemented **computer vision-based pose detection** to analyze body landmarks and provide real-time workout feedback.
- Integrated exercise tracking for **squats, push-ups, dumbbell biceps curls, shoulder presses, and lunges**, with repetition counting and workout metrics.

Smart AI Attendance System Using Face Recognition | AI / Computer Vision

- Developed an AI-powered attendance system using Face Recognition, OpenCV, and Dlib to identify students from classroom images and automate attendance recording.
- Built secure Teacher and Student portals with QR-code-based subject enrollment, bcrypt password encryption, attendance history, and real-time dashboards using Streamlit.
- Integrated Supabase as a cloud database for managing users, subjects, and attendance records, and implemented cloud deployment using GitHub and Streamlit Community Cloud. • **Live Project:** landing-page-smart-attendance-syste.vercel.app

EDUCATION

Bachelor of Technology – Computer Science & Design	**2024 – Present**
R.R. Institute of Modern Technology, Lucknow (AKTU)	**80%**
Intermediate (Class XII)	**2024**
S.R.V.I.C Inter College	**80.0%**
High School (Class X)	**2022**
S.R.V.I.C Inter College	**88.8%**

CERTIFICATIONS

AI Skills Passport – EY & Microsoft

Completed comprehensive training covering Artificial Intelligence fundamentals, core technology concepts, sustainability, and business entrepreneurship.

LLM Developers Course – NASSCOM, FutureSkills Prime & Meta

Acquired foundational knowledge of Large Language Models (LLMs) and emerging Artificial Intelligence technologies.

ADDITIONAL INFORMATION

Languages: English, Hindi

Strengths: Problem Solving, Analytical Thinking, Teamwork, Quick Learning
